
“Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it's the only thing that ever has.”

-Margaret Mead

Village Volunteers supports several sustainable development initiatives such as:

- **The Butterfly Project:** teaching and nursing college scholarship fund for women
- **Ceramic Water Filters:** low-cost ceramic water filters and water health education
- **Educational and Orphan Support:** tuition, uniforms, books, and other necessities for vulnerable children.
- **Environmental Youth Action Corps:** conservation, natural resource protection, and environmental education for youth
- **Feed Villages:** organic demonstration gardens and tree nurseries that donate food to schools and orphan homes
- **Kick it with Kenya:** public health education and youth empowerment through soccer tournaments
- **Micro-Credit Project:** small business training and loan program in villages
- **Youth Outreach Mentors:** HIV/AIDS education and prevention program

Every August, hundreds of people around the world will support sustainable progress in rural villages by participating in a global dinner party

Supporting Sustainable Solutions
for Villages Around the World

In an increasingly interconnected world, what happens around the globe affects us all. The challenges of growing poverty and disease in developing countries can be addressed if we individually recognize our role as a global citizen and take steps forward to make a difference.

Village Volunteers is dedicated to assisting village communities in their quest to achieve a healthy, sustainable life. By always working in partnership with local community organizations, we support sustainable self-sufficiency in the areas of health care, public health awareness, environmental conservation, access to clean water, sanitation, education, food security, and economic stability.

This vision of hope is possible with the help of people like you.

Every August, friends of Village Volunteers throughout the world will participate in global dinner parties to increase awareness about the difficulties rural villages face, and to raise money for the continuing efforts of Village Volunteers.

Invitations to host a party will be sent to a network of over six thousand friends of Village Volunteers. Hosts will receive a party planning kit, and they will be eligible to win a round-trip to Kenya.

Join us in supporting a more sustainable future for rural communities around the world!

Founded in the belief that partnership is a key factor in the renewal and healing of areas plagued by poverty and disease, Village Volunteers is a 501(c)(3) non-profit organization that works in partnership with rural village and capacity-building programs to support the development of sustainable solutions for community survival, education, and growth.

Village Volunteers contributes to the improved welfare of rural communities through partner organizations by:

- Supplying international volunteers
- Facilitating donations and fundraising events
- Managing orphan support and educational sponsorships
- Funding community development workshops
- Offering grant writing services
- Providing an online library of educational resources
- Linking rural leaders with sustainable development experts
